# ABOUT ME

I am a Fayetteville, Arkansas native

I lived in NYC's Upper East Side for 7 years

I studied Photography and Graphic Design at Savannah College of Art & Design (SCAD)

I have two adopted cats, Easel & Princess Moonbeam

I love to read (about 40+ books a year)

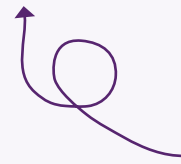

Read more in my About Me blog post

I have been professionally photographing families, pets, seniors, branding, and more since 2012. I am a print-first photographer because I want you to have artwork on your wall of your loved ones. The photographs will make you smile everyday. You will celebrate your loved ones as they are right now and as they grow. I want to celebrate your loved ones in every single stage of their life.

Growing up, my parents invested in printed portraits of me and now my mom's office wall is covered with photographs of me from baby photographs to my wedding. I feel their love every time I see it and my parents get to smile at all of those stages of my life everyday.

Now my own children (my cats, Easel & Princess Moonbeam) are on my walls and it warms my heart to see them larger than life in artwork I will have forever.

Let's make your own wall to your loved ones. Let's help your children know you love them by proudly displaying their portraits in your home. Want your once-in-lifetime moments photographed?

# WHY YOU SHOULD BOOK ME?

I offer a simple, three-step system:

- 1.** Personalized Planning – locations, outfits, and more
- 2.** Fun & Easy Session – we are on an adventure and I happen to have my camera
- 3.** Reveal & Ordering Appointment – get excited to see the best photos from your session and select your favorites

**THE TLDR:**

## THE WHOLE STORY:

My photography services focus on printed photographs for my clients with every printed portrait receiving a digital copy for social media sharing as well. I believe that as we live in a digital world we already have plenty of family, pet, and high school senior photographs on our phones. Professional photography historically has been about large printed wall art and I continue that tradition, celebrating your loved ones in a bold way.

I know that you have a lot of photographers to choose from, and I honor your time with my extended services including detailed planning sessions, location scouting, and studio time.

With over 15 years of experience in photography and editing, I am happy to lend my expertise in wall art to you and your home. All of this is included with each and every client experience.

Hannah was patient and flexible giving our baby a break when he needed a nap or feeding. She came over to show us our proofs and help us select photos we wanted in print/frames we liked. She showed us renderings and how they would fit in our space. Then she hand delivered the final products. We loved working with her and look forward to more as our little one grows.

## THE WHOLE STORY:

### My photography style:

Your session will be like hanging out with a friend (me!) who happens to have a camera. I keep you relaxed, talking about your favorite things (pets, food, sports, whatever), and offer easy guidance if you don't know how to "pose" or where to put your hands.

I focus on photographing in open shade, which means out of the direct sunlight. I capture a range of close up and wide images to tell a story.

My retouching is simple—light, color, and contrast. I started as a film black & white photographer, so I concentrate on brightest whites and darkest blacks being present in every photograph.

Please be sure you like your photographer's editing style, this is super important when you choose your photographer.

I can remove stray hairs, light acne/abrasions, and more, upon request.

## THE TLDR:

Can't get over how perfect our fall photos turned out!! Thank you so much Hannah for capturing these precious moments! Hannah did such a wonderful job with our Spring time photos too. Please go check out her beautiful work.

“ Thank you Hannah for the precious fall family pics!!! I can't wait to have prints of a bunch of them. Hannah made us feel so comfortable and was very flexible with our one-year-old's interests. ”

## THE TLDR:

The photography session is \$195+ for our time together, usually 30-60 minutes unless otherwise noted. With your photography session, you also receive digital images to share online.

Additional digital files are available per purchase at \$97/image.

I also highly recommend printed photographs, because how often do you get photos off your phone and onto your wall? I am here to help with only the highest quality printing, with framing and hanging options as well.

Each image that is printed also includes a digital social media file. No print rights are given for digital images.

It is important that everyone be able to afford professional photography. For this reason, I offer monthly payment plans on sessions and printing investments, and accept cash, check, Venmo, and all major credit cards.
